

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	20 FEB 2026
Team ID	LTVIP2026TMIDS79716
Project Name	ToyCraft Tales: Tableau's vision into toy manufacturer data
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

⌚ 5 minutes

PROBLEM

Toy manufacturers collect a lot of data, but understanding it can be difficult. This project uses Tableau to turn complex toy data into easy, clear visuals to help improve sales, production, and decision-making.

Key rules of brainstorming

To run an smooth and productive session

	Stay in topic.		Encourage wild ideas.
	Defer judgment.		Listen to others.
	Go for volume.		If possible, be visual.

Step-2: Brainstorm, Idea Listing and Grouping

1. Production Efficiency
Monitoring Analyze production output vs. targets. Detect bottlenecks or delays in the manufacturing process. Optimize resource allocation for different toy lines.

1. Sales Performance
Dashboard Track sales by product category, region, and time period. Identify best-selling and low-performing toys. Spot seasonal trends (e.g., holiday spikes).

2. Customer Demographics Insights
Understand sales patterns by customer age group or region. Discover which products appeal to different customer segments.

2. Inventory Management
Visualize stock levels for each toy model.

Highlight slow-moving or overstocked items.

Forecast demand using historical sales data.

3

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

⌚ 20 minutes

TIP:
Add color-coded tags to sticky notes to make it easier to find. For example, red for marketing and categories, green for ideas on themes within your model.

1 Sales Analysis Group
Goal: Focus on understanding toy sales trends. **Tasks:** Collect and clean sales data (Product, Region, Time). Create Tableau dashboards for: Best-selling toys. Regional sales performance.

2 Inventory Insights Group
Goal: Optimize toy stock management. **Tasks:**

- Analyze stock levels and turnover rates.
- Visualize overstocked and understocked items.
- Suggest inventory improvement strategies.

3 Market and Customer Behavior Group
Goal: Understand market demand and customer preferences. **Tasks:** Gather demographic and market data. Visualize which toys are popular in different regions or age groups. Recommend product placement strategies.

Step-3: Idea Prioritization
